

**8.90 RELOADING INSTRUCTIONS FOR .50 Beowulf AMMUNITION**

Issue 5.4 – January 19, 2005

**CAUTION**

Ammunition reloading can be dangerous if done improperly and should not be attempted by persons not willing to read and follow instructions exactly. Children should not be permitted to reload ammunition without strict parental supervision. Always wear safety glasses when reloading and shooting. New and reloaded ammunition should only be used in modern guns in good condition. We do not accept responsibility for any reloaded ammunition as we have no control over the manufacture and storage of components or the loading procedure and techniques. Primers and gun powders, like gasoline and matches, can be dangerous if improperly handled or misused.

It is expected that the person reloading is proficient in reloading or is acting under the supervision of another experienced reloader.

Read the "Lee Reloading Dies instructions" before proceeding.

**Recommend Loads**

**Maximum Case Length**           **1.655 inches**

**Minimum Case Length**       **1.644 inches**

**Please note that factory new brass does not require resizing before use.**
